

Press Release

February 6, 2012

Why PrimoWeigher 360?

For over 30 years, combination scales have not changed in any significant way, until now.

The PrimoWeigher 360 was designed for operators, technicians, managers and executives. The design objective was to create a food safe machine, requiring less operator subjectivity, with quick serviceability and of course reliability, accuracy and speeds. The end result is a sleeker, cleaner and less cluttered machine with more features and benefits than competitors. With the PrimoWeigher 360, operators have less to learn, technicians reduce time to troubleshoot, managers appreciate the uptime and executives lower operating costs.

ADVANCE TECHNOLOGY (SHANGHAI) CO.,LTD. will exhibit in The 19th China International Exhibition on Packaging Machinery & Materials (Sino-Pack 2012) and The 16th China International Exhibition on Brewery, Beverage and Liquid Packaging (China Drink 2012). The twin expos are organized by Adsale Exhibition Services Ltd and China Foreign Trade Centre (Group), which will be held from March 7 – 9, 2012 at the China Import & Export Fair Pazhou Complex (Area A), Guangzhou, China. As the largest packaging and beverage technology exhibition in China, Sino-Pack/ China Drink 2012 aggregate over 400 renowned suppliers to showcase their latest technologies and equipment for food, beer, beverage, daily chemical, cosmetics and pharmaceutical industries.
