STAUBLI (HANGZHOU) MECHATRONIC CO.,LTD. ( Booth No. : 1E31 )

2017.07.10

**STÄUBLI**

[www.staubli.com.cn](http://www.staubli.com.cn)

Stäubli was founded in 1892 and is today a mechatronics solution provider with three dedicated divisions: textile machinery, connectors and robotics.

With a workforce of 4500, Stäubli has a presence in 25 countries and agents in 50 countries around the world.

#### MULTILAM LA-CUDD

MULTILAM LA-CUDD with high current-carrying capacity, high mating cycles, long-term stability and compact size is often used in the medium and high power switchgear, GIS, PASS, high voltage bushing, cable accessory, transformer and other electrical equipment.

Do visit EP Shanghai during 20-22 November at Shanghai New International Expo Centre.
