诺雅克 EX 系列 NOARK EX Series

诺雅克电气——
新能源、电力、工业、建筑、工业控制低压电气系统解决方案专家。

NOARK Electric (Shanghai) Co., Ltd.

NOARK Electric, specialized in low voltage products manufacturing, is a subsidiary of Chint Group. Located in Shanghai China, NOARK Electric has a comprehensive team of R&D, manufacturing, Quality Control, logistics and other function parts. We share the same goal that is providing high-performance and reliable intelligent LV distribution and industrial control product with the latest technology.

Ex9 series of products, as our first launch to the market, successfully combine the streamline structural design and the electric and emulation technology based on 54 exclusive patents. On top of providing outstanding products, NOARK Electric is able to offer the best solution of distribution protection and motor control in various new areas, such as smart grid and renewable energy. As a complementary to PV systems, Noark provide full range of AC/DC LV products to ensure the integration and efficiency of the whole system.

NOARK Electric, innovation for the future.
